Custom Camping Tents for Your Product Brief

Gable-Roof Inflatable Tent | 330 cm & 400 cm Dark-Brown Models

https://seawingglobaltrade.com/custom-tents

TL;DR

Separate the starting tent reference from the changes you want. A villa layout, gable structure and pyramid shape are different design starting points. Use the published dimensions only for the named version. Attach drawings for changed doors, panels or graphics, and ask which changes require a new sample before quoting a bulk project.

Keep the comparison traceable

Keep one specification sheet for each shortlisted version. Put the product URL, size, colour and dated photographs at the top, then distinguish published facts from requested changes. If the brief combines a tent, a cooking item and clothing, give each its own line and quantity. Their dimensions, materials and accessories describe different things and should not be merged into a single specification. For example, a tent’s packed length is a storage measurement, a kettle’s external dimensions do not state its usable capacity, and backpack litres do not describe torso fit. When a field is absent, leave it marked for

confirmation instead of borrowing a value from a visually similar item. Before comparing quotations, check that they refer to the same version and supply scope. Record any substitutions explicitly, including the affected component, colour or packaging. This makes later sample review more useful: the reviewer can compare an identified item against a written requirement instead of trying to reconstruct a decision from a photo and a price.

Compare catalog references

Use the individual specifications to build your shortlist. Each photograph below belongs to the named reference; other products are shown for comparison and are not included with this item.

420 cm Villa Camping Tent | 150D Blackout Family Shelter

The 420 cm villa tent separates an outer size of 420 × 230 × 180 cm from an inner size of 320 × 220 × 170 cm. Use the inner measurement for a sleeping-layout brief and the outer measurement for the overall outline. Its 101 cm packed length is a different transport shape from the larger HILLTOP PRO reference. Blackout fabric is a material description, not a quantified temperature or light-transmission result.

Expanded size	420 × 230 × 180 cm
Inner tent	320 × 220 × 170 cm
Packed dimensions	25 × 25 × 101 cm
Unit weight	14.7 kg
Outer fabric	150D blackout titanium-silver

Gable-Roof Inflatable Tent | 330 cm & 400 cm Dark-Brown Models

The gable-roof tent has two published sizes: 330 × 230 × 180 cm and 400 × 280 × 190 cm. Both are presented in dark brown. The construction record separates the Oxford-check outer, 190T polyester inner and 300D Oxford floor. Keep those layers separate in a material table rather than describing the whole tent with a single fabric code.

Small model	330 × 230 × 180 cm
Large model	400 × 280 × 190 cm
Colour	dark brown
Outer	Oxford checkered fabric
Inner	190T polyester; floor: 300D Oxford

Pyramid Camping Tent | White Tipi-Style Outdoor Shelter

The pyramid reference identifies a white tipi-style camping shelter. The current catalog does not publish its dimensions or a pole specification. Use the silhouette to identify the reference, then request the floor outline, peak height, support arrangement and packed dimensions for a project shortlist. A similar shape in another product’s photograph is not evidence of matching size or construction.

Product format	pyramid camping tent
Colour	white

From product selection to a sample brief

1. **Choose the exact reference**
   Save the product link and the comparison fields relevant to your range.
2. **Record the configuration**
   List the size or version, colour and items you want supplied together.
3. **Evaluate the sample**
   Check the selected configuration against your written checklist and retain photos of the result.
4. **Agree the bulk order**
   Record the approved version, quantity, packing and delivery terms in the final quotation.

Questions for your buying brief

How should I use these examples?

Separate the starting tent reference from the changes you want. A villa layout, gable structure and pyramid shape are different design starting points. Use the published dimensions only for the named version. Attach drawings for changed doors, panels or graphics, and ask which changes require a new sample before quoting a bulk project.

What distinguishes this reference? — 420 cm Villa Camping Tent | 150D Blackout Family Shelter

The 420 cm villa tent separates an outer size of 420 × 230 × 180 cm from an inner size of 320 × 220 × 170 cm. Use the inner measurement for a sleeping-layout brief and the outer measurement for the overall outline. Its 101 cm packed length is a different transport shape from the larger HILLTOP PRO reference. Blackout fabric is a material description, not a quantified temperature or light-transmission result.

What distinguishes this reference? — Gable-Roof Inflatable Tent | 330 cm & 400 cm Dark-Brown Models

The gable-roof tent has two published sizes: 330 × 230 × 180 cm and 400 × 280 × 190 cm. Both are presented in dark brown. The construction record separates the Oxford-check outer, 190T polyester inner and 300D Oxford floor. Keep those layers separate in a material table rather than describing the whole tent with a single fabric code.

What distinguishes this reference? — Pyramid Camping Tent | White Tipi-Style Outdoor Shelter

The pyramid reference identifies a white tipi-style camping shelter. The current catalog does not publish its dimensions or a pole specification. Use the silhouette to identify the reference, then request the floor outline, peak height, support arrangement and packed dimensions for a project shortlist. A similar shape in another product’s photograph is not evidence of matching size or construction.

What should I keep with the selected reference?

Keep one specification sheet for each shortlisted version. Put the product URL, size, colour and dated photographs at the top, then distinguish published facts from requested changes. If the brief combines a tent, a cooking item and clothing, give each its own line and quantity. Their dimensions, materials and accessories describe different things and should not be merged into a single specification. For example, a tent’s packed length is a storage measurement, a kettle’s external dimensions do not state its usable capacity, and backpack litres do not describe torso fit. When a field is absent, leave it marked for confirmation instead of borrowing a value from a visually similar item. Before comparing quotations, check that they refer to the same version and supply scope. Record any substitutions explicitly, including the affected component, colour or packaging. This makes later sample review more useful: the reviewer can compare an identified item against a written requirement instead of trying to reconstruct a decision from a photo and a price.
