How Seawing Supports Outdoor Product Sourcing

55 L Hiking Backpack | Lightweight Water-Resistant Travel Pack

https://seawingglobaltrade.com/how-we-source

TL;DR

Keep discovery, specification review, sample evaluation and order agreement as separate decisions. These references show why an early inquiry should identify exactly what is missing: tent version, kettle capacity or pack fit. A catalog photo starts the discussion; the selected configuration and written requirements give the quotation and sample review their scope.

Keep the comparison traceable

Keep one specification sheet for each shortlisted version. Put the product URL, size, colour and dated photographs at the top, then distinguish published facts from requested changes. If the brief combines a tent, a cooking item and clothing, give each its own line and quantity. Their dimensions, materials and accessories describe different things and should not be merged into a single specification. For example, a tent’s packed length is a storage measurement, a kettle’s external dimensions do not state its usable capacity, and backpack litres do not describe torso fit. When a field is absent, leave it marked for

confirmation instead of borrowing a value from a visually similar item. Before comparing quotations, check that they refer to the same version and supply scope. Record any substitutions explicitly, including the affected component, colour or packaging. This makes later sample review more useful: the reviewer can compare an identified item against a written requirement instead of trying to reconstruct a decision from a photo and a price.

Compare catalog references

Use the individual specifications to build your shortlist. Each photograph below belongs to the named reference; other products are shown for comparison and are not included with this item.

Inflatable Glamping Tent | 6.3 & 12 m² Models

The 6.3 m² model name is published alongside 300 × 220 × 220 cm dimensions; retain both labels rather than calculating a replacement floor area. The 12 m² model is listed at 300 × 400 × 200 cm. The record also names 12 cm air columns, a manual pump, fourteen stakes and ten guylines. Keep the inflation instructions and component list tied to the chosen model.

Product format	Lightweight Inflatable Tents
Model	6.3 m² model — 300 × 220 × 220 cm; 12 m² model — 300 × 400 × 200 cm
Outer fabric	300D Oxford Cloth (PU3000 Waterproof Rated)
Frame	12 cm (4.72 in) Air Columns
Included items	14 tent stakes, 10 guy lines with aluminum clips, 12 cm air poles and a manual air pump
Unit weight	11 kg (24.25 lbs)
Packed dimensions	29.5 × 13.4 × 10.6 in (75 × 34 × 27 cm)
Colour	Khaki

Stainless Steel Camping Kettle | 288 g Portable Outdoor Kettle

This stainless-steel kettle has listed dimensions of 10 × 15 × 17 cm and a 288 g weight. Those dimensions do not specify usable water capacity. Keep the volume field open until the selected kettle is measured or documented. For a cookware range, compare the handle, lid, spout and base with the intended packing and cooking arrangement instead of assuming every camp kettle fits every stove.

Material	stainless steel
Size	10 × 15 × 17 cm
Unit weight	288 g
Product format	portable outdoor kettle

55 L Hiking Backpack | Lightweight Water-Resistant Travel Pack

The 55 L backpack record lists polyester for both the shell and lining. This positions it as the largest labelled capacity among the 20 L, 30 L and 55 L references compared here. Capacity does not state the pack's body dimensions, torso range or approved load. Keep those as distinct selection fields when preparing a fitting sample and a retail product sheet.

Capacity	55 L
Material	polyester
Lining	polyester
properties	breathable, water-resistant, lightweight and wear-resistant
Intended use	hiking, travel and mountaineering

From product selection to a sample brief

1. **Choose the exact reference**
   Save the product link and the comparison fields relevant to your range.
2. **Record the configuration**
   List the size or version, colour and items you want supplied together.
3. **Evaluate the sample**
   Check the selected configuration against your written checklist and retain photos of the result.

4. **Agree the bulk order**
   Record the approved version, quantity, packing and delivery terms in the final quotation.

Questions for your buying brief

How should I use these examples?

Keep discovery, specification review, sample evaluation and order agreement as separate decisions. These references show why an early inquiry should identify exactly what is missing: tent version, kettle capacity or pack fit. A catalog photo starts the discussion; the selected configuration and written requirements give the quotation and sample review their scope.

What distinguishes this reference? — Inflatable Glamping Tent | 6.3 & 12 m² Models

The 6.3 m² model name is published alongside 300 × 220 × 220 cm dimensions; retain both labels rather than calculating a replacement floor area. The 12 m² model is listed at 300 × 400 × 200 cm. The record also names 12 cm air columns, a manual pump, fourteen stakes and ten guylines. Keep the inflation instructions and component list tied to the chosen model.

What distinguishes this reference? — Stainless Steel Camping Kettle | 288 g Portable Outdoor Kettle

This stainless-steel kettle has listed dimensions of 10 × 15 × 17 cm and a 288 g weight. Those dimensions do not specify usable water capacity. Keep the volume field open until the selected kettle is measured or documented. For a cookware range, compare the handle, lid, spout and base with the intended packing and cooking arrangement instead of assuming every camp kettle fits every stove.

What distinguishes this reference? — 55 L Hiking Backpack | Lightweight Water-Resistant Travel Pack

The 55 L backpack record lists polyester for both the shell and lining. This positions it as the largest labelled capacity among the 20 L, 30 L and 55 L references compared here. Capacity does not state the pack’s body dimensions, torso range or approved load. Keep those as distinct selection fields when preparing a fitting sample and a retail product sheet.

What should I keep with the selected reference?

Keep one specification sheet for each shortlisted version. Put the product URL, size, colour and dated photographs at the top, then distinguish published facts from requested changes. If the brief combines a tent, a cooking item and clothing, give each its own line and quantity. Their dimensions, materials and accessories describe different things and should not be merged into a single specification. For example, a tent’s packed length is a storage measurement, a kettle’s external dimensions do not state its usable capacity, and backpack litres do not describe torso fit. When a field is absent, leave it marked for confirmation instead of borrowing a value from a visually similar item. Before comparing quotations, check that they refer to the same version and supply scope. Record any substitutions explicitly, including the affected component, colour or packaging. This makes later sample review more useful: the reviewer can compare an identified item against a written requirement instead of trying to reconstruct a decision from a photo and a price.
