Camping Cookware & Lighting Wholesale

Portable Gas Stove | 230 g Stainless Steel Camping Burner

https://seawingglobaltrade.com/products/camp-kitchen-lighting

TL;DR

Plan a camp kitchen by separating its jobs: heating, holding cookware, preparing food, serving and lighting. A tripod is a support component; a kettle is a vessel; a stove supplies heat. A photograph containing several items is not an inclusion list. Keep each product reference on its own order line, then record any items that must work together. For cookware, distinguish the metal body, handles, lid and accessories. Compare vessel dimensions with the intended cooking arrangement before treating two items as a set. Listed weight is useful for an assortment comparison only when the same components are included in both totals.

Keep the comparison traceable

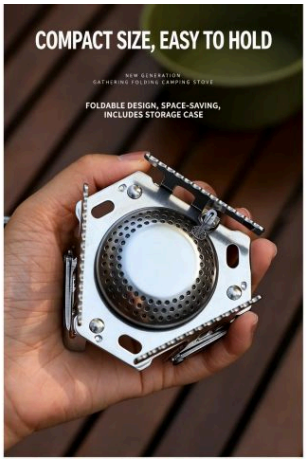

Keep one specification sheet for each shortlisted version. Put the product URL, size, colour and dated photographs at the top, then distinguish published facts from requested changes. If the brief combines a tent, a cooking item and clothing, give each its own line and quantity. Their dimensions, materials and accessories describe different things and should not be merged into a single specification. For example, a tent’s packed length is a storage measurement, a kettle’s external dimensions do not state its usable

capacity, and backpack litres do not describe torso fit. When a field is absent, leave it marked for confirmation instead of borrowing a value from a visually similar item. Before comparing quotations, check that they refer to the same version and supply scope. Record any substitutions explicitly, including the affected component, colour or packaging. This makes later sample review more useful: the reviewer can compare an identified item against a written requirement instead of trying to reconstruct a decision from a photo and a price.

Compare catalog references

Use the individual specifications to build your shortlist. Each photograph below belongs to the named reference; other products are shown for comparison and are not included with this item.

Portable Gas Stove | 230 g Stainless Steel Camping Burner

This burner has a listed open size of 14 × 7 cm and packed size of 6 × 7 cm, with a 230 g weight and 38 cm hose. The material record names stainless steel, aluminium and brass. The hose length does not identify the fuel connector standard. Obtain the selected version’s fuel and connection instructions before specifying a canister or marketing a compatible stove set.

Open size	14 × 7 cm
Packed dimensions	6 × 7 cm
Unit weight	230 g
Material	stainless steel, aluminium and brass
Hose length	38 cm

Stainless Steel Camping Kettle | 288 g Portable Outdoor Kettle

This stainless-steel kettle has listed dimensions of 10 × 15 × 17 cm and a 288 g weight. Those dimensions do not specify usable water capacity. Keep the volume field open until the selected kettle is measured or documented. For a cookware range, compare the handle, lid, spout and base with the intended packing and cooking arrangement instead of assuming every camp kettle fits every stove.

Material	stainless steel
Size	10 × 15 × 17 cm
Unit weight	288 g
Product format	portable outdoor kettle

8-Piece Camping Cookware Set | 600 g Nesting Outdoor Cooking Kit

The DS-308 cookware reference lists aluminium-alloy cookware, ABS handles and a 600 g reference weight. Its kettle is specifically listed as 0.8 L, 14 cm in diameter and 8.5 cm high. Keep that volume attached to the kettle, not every vessel in the set. Use an itemised contents list to reconcile the eight-piece name with the pieces selected for your order.

Product format	outdoor portable cookware set
Material	aluminium alloy cookware
Handle material	ABS
Unit weight	600 g
Kettle	0.8 L; diameter 14 cm; height 8.5 cm
Model	DS-308

From product selection to a sample brief

1. **Choose the exact reference**
   Save the product link and the comparison fields relevant to your range.
2. **Record the configuration**
   List the size or version, colour and items you want supplied together.
3. **Evaluate the sample**
   Check the selected configuration against your written checklist and retain photos of the result.

4. **Agree the bulk order**
   Record the approved version, quantity, packing and delivery terms in the final quotation.

Questions for your buying brief

How should I use these examples?

Plan a camp kitchen by separating its jobs: heating, holding cookware, preparing food, serving and lighting. A tripod is a support component; a kettle is a vessel; a stove supplies heat. A photograph containing several items is not an inclusion list. Keep each product reference on its own order line, then record any items that must work together. For cookware, distinguish the metal body, handles, lid and accessories. Compare vessel dimensions with the intended cooking arrangement before treating two items as a set. Listed weight is useful for an assortment comparison only when the same components are included in both totals.

What distinguishes this reference? — Portable Gas Stove | 230 g Stainless Steel Camping Burner

This burner has a listed open size of 14 × 7 cm and packed size of 6 × 7 cm, with a 230 g weight and 38 cm hose. The material record names stainless steel, aluminium and brass. The hose length does not identify the fuel connector standard. Obtain the selected version’s fuel and connection instructions before specifying a canister or marketing a compatible stove set.

What distinguishes this reference? — Stainless Steel Camping Kettle | 288 g Portable Outdoor Kettle

This stainless-steel kettle has listed dimensions of 10 × 15 × 17 cm and a 288 g weight. Those dimensions do not specify usable water capacity. Keep the volume field open until the selected kettle is measured or documented. For a cookware range, compare the handle, lid, spout and base with the intended packing and cooking arrangement instead of assuming every camp kettle fits every stove.

What distinguishes this reference? — 8-Piece Camping Cookware Set | 600 g Nesting Outdoor Cooking Kit

The DS-308 cookware reference lists aluminium-alloy cookware, ABS handles and a 600 g reference weight. Its kettle is specifically listed as 0.8 L, 14 cm in diameter and 8.5 cm high. Keep that volume attached to the kettle, not every vessel in the set. Use an itemised contents list to reconcile the eight-piece name with the pieces selected for your order.

What should I keep with the selected reference?

Keep one specification sheet for each shortlisted version. Put the product URL, size, colour and dated photographs at the top, then distinguish published facts from requested changes. If the brief combines a tent, a cooking item and clothing, give each its own line and quantity. Their dimensions, materials and accessories describe different things and should not be merged into a single specification. For example, a tent’s packed length is a storage measurement, a kettle’s external dimensions do not state its usable capacity, and backpack litres do not describe torso fit. When a field is absent, leave it marked for confirmation instead of borrowing a value from a visually similar item. Before comparing quotations, check that they refer to the same version and supply scope. Record any substitutions explicitly, including the affected component, colour or packaging. This makes later sample review more useful: the reviewer can compare an identified item against a written requirement instead of trying to reconstruct a decision from a photo and a price.
