Intended use	group, hiking and outdoor apparel orders

Using these specifications to choose a product

Here 3L means three-layer construction, not a three-litre capacity. The jacket record describes a composite shell, sealed seams and specified front-zipper and pocket construction, with embroidery as a logo option. For a branded sample, mark the proposed embroidery location and retain the seam and closure details in the brief. The listing does not publish a numeric breathability or hydrostatic-head result.

For 3L Waterproof Hiking Jacket, the published record states Design: 3-layer composite outerwear, Seams: fully seam-sealed, Closures: waterproof front zipper and waterproof pocket construction, Logo option: Embroidery, Intended use: group, hiking and outdoor apparel orders. Keep those values together under this reference when building a wholesale product shortlist; a value from a neighbouring model does not describe this item.
