Large 55 L polyester pack with lightweight and water-resistant construction. Capacity: 55 L. Compare the available specifications below and select the preferred configuration for your quotation request.

Catalog specifications

Capacity	55 L
Material	polyester
Lining	polyester
properties	breathable, water-resistant, lightweight and wear-resistant
Intended use	hiking, travel and mountaineering

Using these specifications to choose a product

The 55 L backpack record lists polyester for both the shell and lining. This positions it as the largest labelled capacity among the 20 L, 30 L and 55 L references compared here. Capacity does not state the pack’s body dimensions, torso range or approved load. Keep those as distinct selection fields when preparing a fitting sample and a retail product sheet.

For 55 L Hiking Backpack, the published record states Capacity: 55 L, Material: polyester, Lining: polyester, properties: breathable, water-resistant, lightweight and wear-resistant, Intended use: hiking, travel and mountaineering. Keep those values together under this reference when building a wholesale product shortlist; a value from a neighbouring model does not describe this item.
