Using these specifications to choose a product

The DS-308 cookware reference lists aluminium-alloy cookware, ABS handles and a 600 g reference weight. Its kettle is specifically listed as 0.8 L, 14 cm in diameter and 8.5 cm high. Keep that volume attached to the kettle, not every vessel in the set. Use an itemised contents list to reconcile the eight-piece name with the pieces selected for your order.

For 8-Piece Camping Cookware Set, the published record states Product format: outdoor portable cookware set, Material: aluminium alloy cookware, Handle material: ABS, Unit weight: 600 g, Kettle: 0.8 L; diameter 14 cm; height 8.5 cm, Model: DS-308. Keep those values together under this reference when building a wholesale product shortlist; a value from a neighbouring model does not describe this item.
